

Eyes on Equity

*Through the Social
Determinants of Health*

Please join the Health Council of West Central Florida as we explore the impact of the social determinants of health and health equity. Through a series of six 90-minute webinars we will build an understanding of how **improving the social determinants of health can advance equity, and make stronger, more resilient communities.**

There is no charge, however registration is limited to 100 participants. You do not have to attend each session, though we hope that you will.
